

international Burn Injury Database

incorporating the UK

**National Burn Injury Database
(NBID)**

Prevention Report

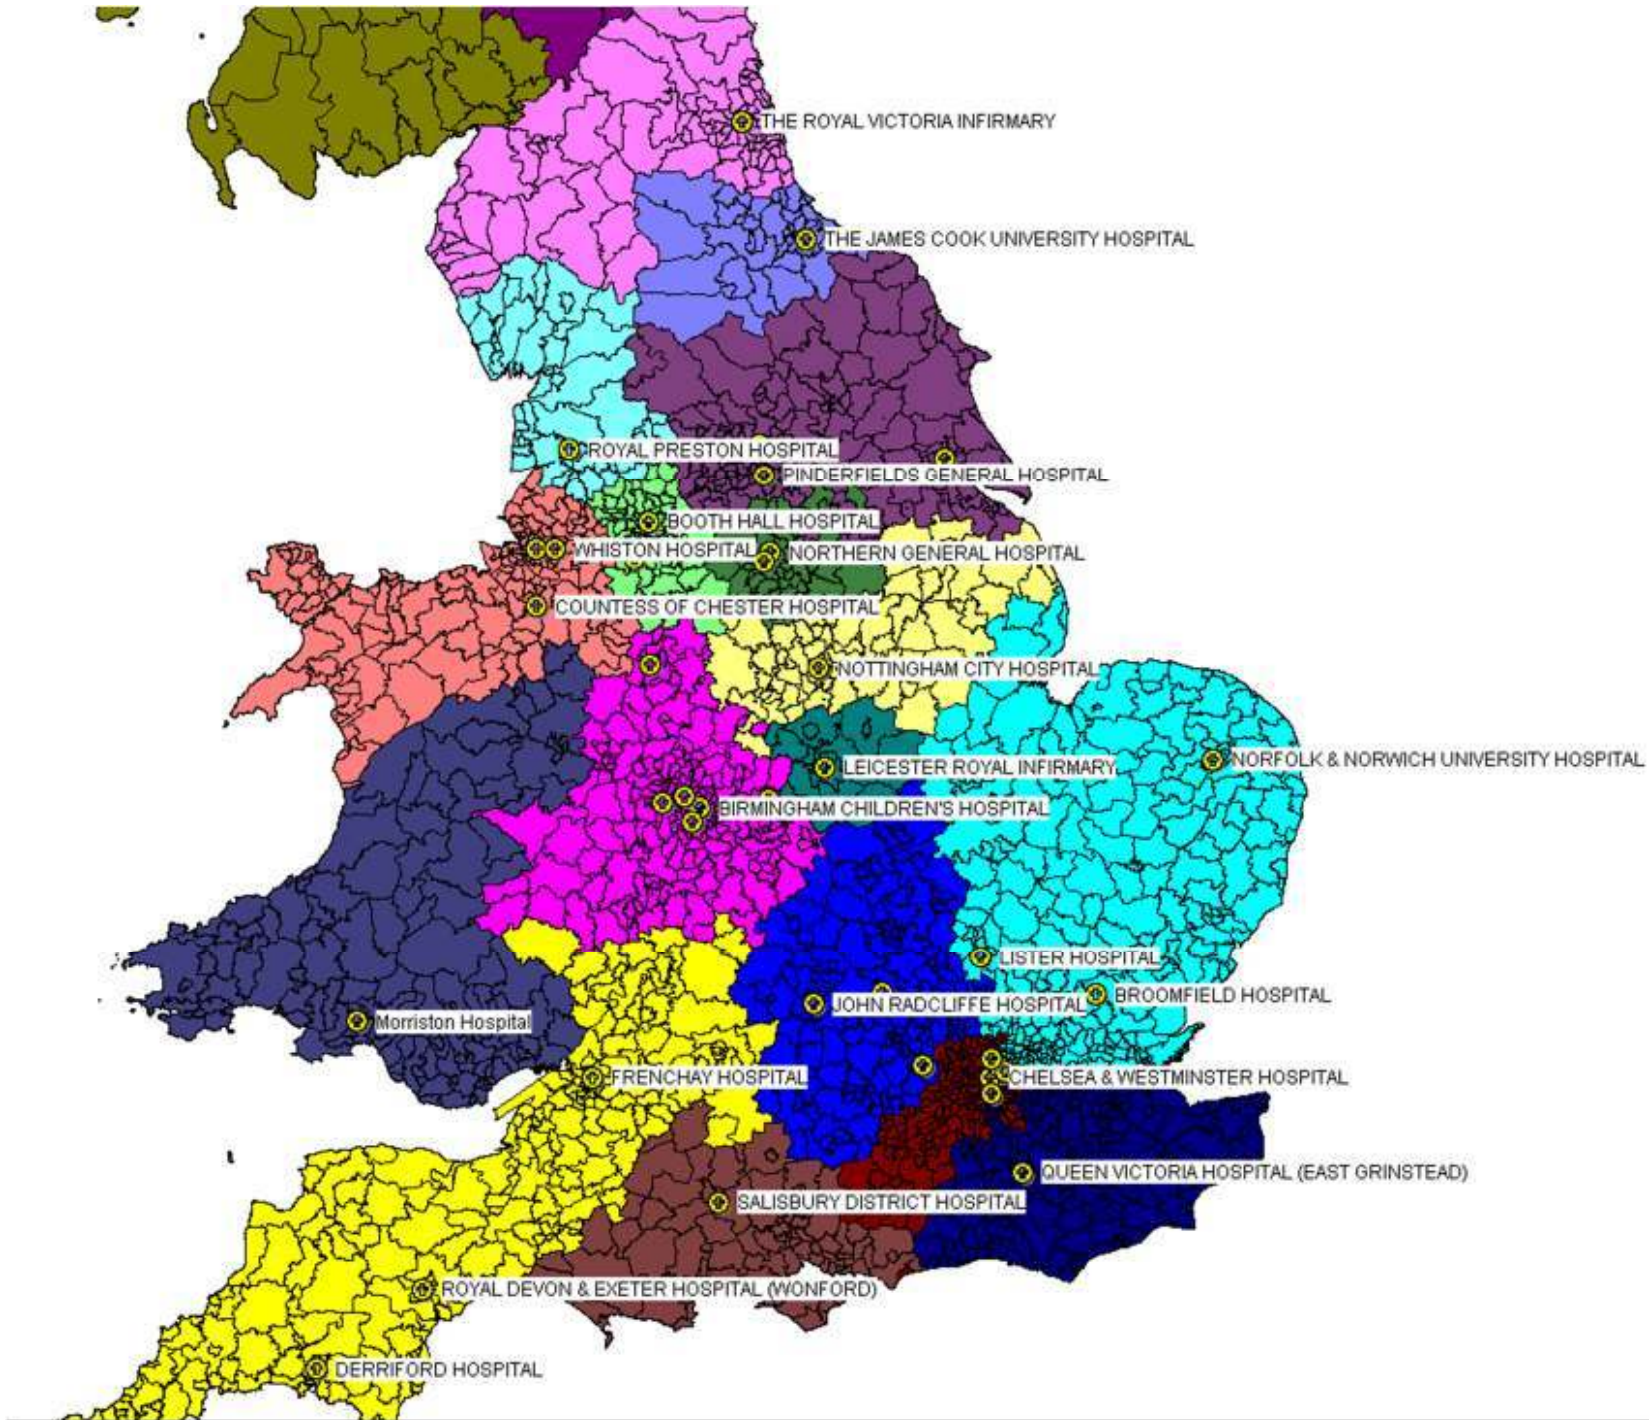

covering

Adult

2010 to 2014 inc

Figure	P1		Map of Burn Service catchment areas	This covers only England and Wales at present. Designation of burn services will not conclude in the foreseeable future. After that each service will be a Burn Centre (BC), Burn Unit (BU) or Burn Facility (BF). There are likely to remain a number of Plastic Surgery Units (PSU) and District General Hospitals (DGH) offering some form of in-patient burn care.
Figure	P2	Adult	Where people get injured related to Region of England and Wales (E&W)	Summated figures from the database for 2003 to date for acute injury seen in burn services.
Figure	P3	Adult	Living Space where people get injured related to Region of E&W	
Figure	P4	Adult	What Activity people are involved in when they get injured in the Regions of E&W	
Figure	P5	Adult	Types of burn injury occurring	
Figure	P6	Adult	Commonest Sources of injury in E&W	Broken down by Injury Severity Threshold levels: BC (Burn Centre-most severe), BU (Burn Unit-severe) and BF (Burn Facility-moderate)
Figure	P7	Adult	Average Cost for the Commonest Sources of injury in E&W	Broken down by Injury Severity Threshold levels: BC (Burn Centre-most severe), BU (Burn Unit-severe) and BF (Burn Facility-moderate). Based on the Manchester adult Patient Level Costing
Figure	P8	Adult	Injury numbers year on year by Age Group	The rise in numbers reflects the increase in cases being reported to iBID, and not necessarily a rise in incidence.
Figure	P9	Adult	Injury numbers year on year by Region of E&W	
Figure	P10	Adult	Injury numbers year on year by Injury Type	
Figure	P11	Adult	Injury numbers per month of the year by Injury Type	
Figure	P12	Adult	Injury numbers by day of the week by Injury Type	
Figure	P13	Adult	Injury numbers by time of the day by Injury Type
